C Cm Cm  
 The minute we drew up the box,  
 Cm AbMaj7  
 it was clear this was a class of distinction a  
 D  
 real core concept.

G  
 Domain Models  
 Cm  
 so refined,  
 G  
 can drive your business value  
 G  
 to the end of the line.

G Cm Cm  
 We're drawing a link from that box  
 Cm AbMaj7 D D  
 to another for a key relationship

 At one of the ends of a link  
 Cm AbMaj7  
 between our boxes we can put little numbers  
 D  
 and special symbols.

<p><b>C</b></p>  <p style="text-align: right;">(1) 3</p>

G

Mul-ti-plicities

Cm

can be shown.

G

Collections can be attributes

G

when they are known.

G

Cm

Cm

So let me get right to the point:

Cm

AbMaj7

D D

Domain concepts should have names clients understand

C

Cm

Cm

And so to the untrained eye

Cm

AbMaj7

the model might seem to have a lot of mess and boxes

D

and annotations.

G

Keep user inter-

Cm

-faces away! Put them

G

in another layer

G

for another day.

G

Cm

Cm

So if we now start from our Domain Models

Cm

AbMaj7

D D

we can design our software to maintain and extend

## AbMaj 7
